Summary

"Ambitious **Full Stack Web Developer (2025 Graduate)** with a strong foundation in React.js and Django. Passionate about building functional SaaS tools and modern web applications. Proven ability to deliver real-world solutions, including a **commercial freelance project** for a local business and a live **Learning Management System (LMS)**. Committed to leveraging AI-driven development to build efficient, production-ready products."

Projects

DebugMind AI (AI SaaS Tool)

Full Stack Developer | FastAPI & Gemini API

- Developed an AI-powered code debugging platform with a **premium UI/UX** using React and Tailwind CSS.
- Integrated **Google Gemini API** for real-time error detection and automated code-fix suggestions.
- Optimized application performance for seamless user experience and deployed on Vercel.
- Live Link:** debug-mind-ai.vercel.app 🔗

AI Resume Analyzer (SaaS Product)

AI Developer | LLM Integration & React

- Developed an automated resume screening tool with a **modern, intuitive UI** to calculate match percentages for job descriptions.
- Integrated **Large Language Models (LLMs)** to extract and analyze technical skills with 95% accuracy.
- Optimized data parsing logic to ensure seamless file uploads and real-time feedback.
