Full Stack Developer with Two years of experience building scalable web applications using the MERN stack (React.js, Node.js, Express.js, MongoDB). Strong expertise in REST API development, JWT authentication, Redux state management, and database integration. Proficient in TypeScript for building type-safe applications and Tailwind CSS for creating responsive, modern user interfaces. Experienced in performance optimization, debugging, CI/CD, and deploying applications in AWS environments. Passionate about writing clean, maintainable, and scalable code.
