PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience designing, developing, and deploying scalable web applications using modern JavaScript frameworks and backend technologies. Proficient in React.js, Next.js, TypeScript, Node.js, and RESTful API development. Experienced in building end-to-end solutions, optimizing performance, and collaborating with cross-functional teams to deliver high-quality products. Strong expertise in microservices architecture, cloud deployment (AWS), and CI/CD pipelines.

SKILLS

Languages: JavaScript, TypeScript, Python

Frontend Development: React.js, Next.js, Redux Toolkit, Tailwind CSS, MUI

Backend Development: Node.js, Express.js, FastAPI, REST APIs, GraphQL

Databases: MongoDB, MySQL, PostgreSQL

Cloud & DevOps: AWS (EC2, S3), Firebase, Vercel, Netlify, Docker, CI/CD

Tools & Platforms: Git, Postman, GitHub, Bubble, Adalo

PROFESSIONAL EXPERIENCE

MathCo | 11/2024 – Present

Product Engineer – 2

- Developed scalable UI components using React.js and TypeScript, improving performance by ~25%
- Designed and implemented RESTful APIs, reducing response time by ~30%
- Built full-stack modules using Node.js, Express.js, and MySQL
- Collaborated with cross-functional teams to improve delivery speed by 20%
- Optimized frontend performance for high-traffic applications

Suryavanshi Ventures Pvt Ltd | 11/2022 – 11/2024

Software Development Engineer (SDE)

- Built 4+ full-stack applications using Next.js, Node.js, MongoDB, and MySQL
- Developed REST APIs and authentication systems using NextAuth
- Improved API performance and reduced latency through backend optimization
- Led junior developers and contributed to system architecture decisions
- Managed deployments using AWS and Vercel with CI/CD pipelines

EDUCATION

Master of Computer Applications (MCA)

Gyan Ganga Institute of Technology and Sciences, Jabalpur
CGPA: 8.5

Bachelor of Computer Applications (BCA)

Jabalpur College of Computer and Communication
CGPA: 7.7

PROJECTS

ChatGPT Clone (RAG-Based)

Project Link - <https://rajulverma-app-ai-chatbot-rag.netlify.app/>

- Built a conversational AI system using RAG with LangChain, Next JS, TypeScript and ChromaDB
- Integrated LLM via Groq (LLaMA 3) with streaming responses
- Implemented semantic search using HuggingFace embeddings + query rewriting + re-ranking for improved retrieval accuracy
- Developed backend using FastAPI and SQLAlchemy, including chat sessions, document ingestion, and vector-based retrieval

Nitecapp Super Admin

Project Link - <https://superadmin.nitecapp.com/login>

- Integrated REST APIs with frontend for seamless backend communication.
- Built reusable component architecture for scalability and maintainability.
- Optimized performance using Next.js server-side rendering.

Golfhom

Project Link - <https://www.golfhom.com/>

- Built a niche vacation rental platform using Next.js, Tailwind CSS, Node.js, and MySQL.
- Developed APIs for property listings, search filtering, and booking systems.
- Managed complete product lifecycle from design to deployment on AWS.

Blog Platform

Project Link - <https://rajulverma-app-blogs-full-stack.netlify.app/>

- Built a scalable blogging platform using Node.js, TypeScript, Next.js, and React.
- Implemented server-side rendering and optimized performance for faster load times.
- Integrated authentication and responsive UI with Tailwind CSS.

Jotted

Project Link - <https://app.jottedonline.com/>

- Developed a responsive note-taking platform using Next.js and Tailwind CSS.
- Implemented authentication using NextAuth for secure user access.
- Enabled efficient note organization and search functionality.

Pelican

Project Link - <https://pelicaninvests.com/>

- Demonstrated a strong belief in the pivotal role education plays in shaping a child's success. Successfully facilitated connections between those in need and those willing to support, fostering a positive impact on the education landscape.
- Showcased leadership and a commitment to driving positive change through meaningful connections.
